The Seguimax Bulkhead Emergency Light - 150 Lumens IP65 is designed to light up the place in case of a power failure or to light up the escape route during emergencies. It can be used indoors and outdoors, such as parking lots, offices, hotels, restaurants, schools, and hospitals.

Technical Information

Main power supply	220-240 V (50/60 Hz)
Rated power (energy consumption)	3,5 W
LEDs power	1,3 W
Power factor	0,40
Luminous flux	150 lumens
Battery	Lithium (Li-ion) 3,7V 1,5Ah
Battery life	Up to 4 years
Battery protection	Overcharging and deep discharging protection
Recharging time	24 hours
Autonomy	3 hours
Protection grade	IP 65
Operation modes	Emergency (non-maintained) / Always on (maintained)
Installation methods	Wall / Celing / Recessed *(optional)* *
Auto-test function	No
Test button	Yes
"EXIT" sticker included in the package	Yes
Light source type	27 LEDs SMD (5700 K – 7200 K)
Weight	0,57 kg
Dimensions	352 x 110 x 68 mm
Maximum working temperature	40 ºC
Reference standards	IEC 60598-2-22
Housing material	PC Plastic
Warranty	2 years

* Recessed installation means you need to buy a special accessory (reference 51234).
