

## Twin Spot Emergency Light – 1000 lumens IP65

Code: 51011

### Presentation

The Segurimax Twin Spot Emergency Light - 1000 Lumens IP65 is designed to light up the place in case of a power failure or to light up the escape route during emergencies. It can be used indoors and outdoors, such as parking lots, offices, hotels, restaurants, schools, and hospitals.

### Technical Information

<b>Main power supply</b>	220-240 V (50/60 Hz)
<b>Rated power (energy consumption)</b>	9 W
<b>LEDs power</b>	10 W
<b>Power factor</b>	>0,45
<b>Luminous flux</b>	1000 lumens
<b>Battery</b>	Lithium Iron Phosphate (LiFePO4) 9,6V 1,8Ah
<b>Battery life</b>	Up to 4 years
<b>Battery protection</b>	Overcharging and deep discharging protection
<b>Recharging time</b>	24 hours
<b>Autonomy</b>	2 hours
<b>Protection grade</b>	IP 65
<b>Operation modes</b>	Emergency Only (non-maintained)
<b>Installation methods</b>	Wall
<b>Auto-test function</b>	Yes
<b>Auto-test frequency</b>	Monthly and semi-annually
<b>Light source type</b>	30 LEDs SMD (5700 K – 7200 K)
<b>Weight</b>	1,3 kg
<b>Dimensions</b>	300 x 302 x 80 mm
<b>Maximum working temperature</b>	40 °C
<b>Reference standards</b>	IEC 60598-2-22
<b>Housing material</b>	PC Plastic
<b>Warranty</b>	2 years
