

Emergency Light – 150 Lumens

Code: 51012

Presentation

The Segurimax Emergency Light – 150 Lumens is designed to light up the place in case of a power failure or to light up the escape route during emergencies. It can be used indoors in offices, hotels, restaurants, commercial buildings, and residential buildings.

Technical Information

Main power supply	220-240 V (50/60 Hz)
Rated power (energy consumption)	3 W
LEDs power	1,5 W
Power factor	>0,45
Luminous flux	150 lumens
Battery	Lithium Iron Phosphate (LiFePO4) 3,2V 1,5Ah
Battery life	Up to 4 years
Battery protection	Overcharging and deep discharging protection
Recharging time	24 hours
Autonomy	3 hours
Protection grade	IP 20
Operation modes	Emergency Only (non-maintained)
Fixation methods	Wall / Ceiling
Auto-test function	Yes
Auto-test frequency	Monthly and semi-annually
Light source type	1 LEDs SMD (5700 K – 7200 K)
Weight	0,33 kg
Dimensions	130 x 130 x 40 mm
Maximum working temperature	40 °C
Reference standards	IEC 60598-2-22
Housing material	PC Plastic
Warranty	2 years
